

Understanding and Exploiting Genomics

BRAVO: Determining interactions between genes, traits & the environment to secure future yields.

Dr Rachel Wells, John Innes Centre

Reducing Waste

Postharvest Biology and Technology

Professor Leon Terry,
Cranfield University

Precision Agriculture and Smart Technology

AgriEPIcentre: Engineering and precision agriculture solutions for the Agri-Food Industry.

Dr Freddie Reed, AgriEPIcentre

Innovation Hub

Sponsored by

Sustainable Agricultural Systems

Harnessing Plant Stress Responses for Resource Use Efficiency and Produce Quality

Dr Mark Else, NIAB EMR

Crop and Farmed Animal Health

Precision technology and 'big data' in animal health & welfare analytics

Dr Jasmeet Kaler,
University of Nottingham

and

On-Farm Diagnostics for Herbicide Resistance Testing in Black-grass

Professor Rob Edwards,
Newcastle University

Food Safety and Nutrition

Using Machine Learning to Track and Control Infectious Diseases

Dr Alison Tidswell,
University of Edinburgh

Wednesday 3rd January 2018
Two sessions: 3.15pm & 4.30pm

Book onto the event or come and browse during the coffee break.
